Information

Notes

Noah is a piece-dyed fabric made from 100% recycled fibre. Irregularities and textural variations are an intrinsic part of recycled materials, which may cause slight variations in colour and texture between different dye-lots.
Noah owes its organic texture to a specialty yarn that adds a characteristic unevenness to the fabric's surface. Due to the structure of this yarn special care should be taken during confection and also in use, and any contact with sharp objects, Velcro or any rough surface in general, should be avoided.

Attention

When confectioning or washing the sofa cover with velcro attach a protective cloth or strip.
Noah should be vacuum-cleaned at low setting using a special soft furniture nozzle.
Do not use brushes or abrasive sponges.
